POLK IS CHOSEN FOR COUNSELOR

Lansing Understood to Have
Selected New York Man
for State Department Post.

PALMER'S HOPES VANISH

Former Congressman from Pennsylv-
vania Considered for Office Un-
til Few Days Ago.

President Wilson in a few days will tender the appointment of counselor of the State Department to Frank L. Polk, corporation counsel of the city of New York. Mr. Polk is an accomplished lawyer and stands high in the esteem of President Wilson and Secretary of the Treasury McAdoo. He was selected by Mr. McAdoo for collector of the port of New York in the early days of the administration, but the appointment was prevented by Senator O'Gorman, Secretary of State Lansing is understood to have chosen Mr. Polk for the consular position.

This disclosure, which comes from a high administration authority, shows clearly that friends of former Representative A. Mitchell Palmer have realized the inadvisability of further urging him for the consular position. President Wilson, with a few inconspicuous exceptions, has adhered to the rule of permitting his Cabinet members to select the men to be appointed to positions in their respective departments.

Until a few days ago, when disclosures were published regarding a mysterious White House visitor who was designated by the initials "M. P." and who apparently secured information from the President which was passed on to agents of the German government, Mr. Palmer himself has issued a statement denying emphatically that he was the "M. P." referred to in the newspaper disclosures.

Mr. Polk's selection is not regarded as a special mark of approval for the reform element in the New York Democratic ranks where he has been politically prominent. He is understood to have been the personal selection of Secretary Lansing, who possibly acted without extended consultations with administration officials.

RUSSIA LOSES HOPE OF AID FROM ALLIES

Petrograd Editor Changes Tune.
According to Berlin
Dispatch.

Berlin (by wireless) Aug. 26.—The following was among the items given out today by the Overseas News Agency: "The latest number of the Russian newspaper Novoye Vremya, arriving in Copenhagen from St. Petersburg (Petrograd) contains an interesting item illustrating Russian sentiment. Menshikov, editor of the paper, has been printing daily articles headed 'We Must Conquer.'"

"The editor received so many letters asking him to change the title of the paper, he was constrained to give the following reply: 'It is true that Russia has been weakened and exhausted by Germany. It is in a similar condition. If Russia could only put her trust in the allies, whose duty it is to fight for Russia, it is time to give up hope.'"

TAFT SCORES REFORMERS.

Ex-President Unfolds Peace Plan to
San Franciscans.

San Francisco, Aug. 26.—Declaring that reform leaders are plotting the removal of the president, William H. Taft, at a luncheon in his honor at the Commercial Club this afternoon, Taft denounced labor union leaders, nonpartisanism, to State railroad commissions, and to "the great reformers—self constituted friends of the people."

Taft advocated a plan to bring the great powers into a treaty in which they should agree to submit all justiciable questions to an international tribunal. If one member of the league made premature or unjust war upon another the remaining members would stand pledged to support the nation attacked.
